

# YB3 Rental Tracker Mounting Guide

**!!!! PLEASE INSTALL YOUR TRACKER IMMEDIATELY!!!!**  
**Your tracker has already been turned on**

The YB3 Rental Tracker is a self-contained battery-powered GPS Tracking device.

It uses the Iridium Satellite system to get GPS fixes and transmit its positions back to base as such it requires to be able to see the sky. If the YB3 Tracker is not installed immediately where it has a clear view of the sky, the battery will **DRAIN QUICKLY** as it will try to get a signal.

## DOs and DO NOTs

- ✓ DO ensure that the YB Tracker is mounted with the antenna pointing towards the sky
- ✓ DO ensure that the YB Tracker has a good view of the sky
- ✗ DO NOT place the YB Tracker where it may be grabbed and broken in heavy seas DO
- ✗ NOT place the YB Tracker under metal covers or inside a vessel
- ✗ DO NOT place the YB Tracker within 12 inches of another GPS antenna

## HOW TO MOUNT THE YB3 TRACKER

1. Wrap the Velcro straps around a horizontal rail and a vertical rail
2. Put a cable tie around the rail, through an eyelet on the pouch, and secure.
3. Additional cable ties or tape is also ok to use.

**REMEMBER HIGH AND DRY IS THE BEST PLACEMENT**
